

16 July 1987

MEMORANDUM TO: Chief, Analysis Group
Chief, Operations Group
Chief, Production Group
Chief, Engineering Support Group
Chief, Administrative Staff

FROM:
Director, Foreign Broadcast Information Service

STAT

SUBJECT: ESG Organizational Changes

1. Effective 20 July 1987, Engineering Support Group will undergo several organizational changes within its divisions, as outlined below (also see new ESG organizational chart attached).

2. Field Engineering Division: No change.

3. Headquarters Engineering Division: A new position of deputy chief, HED has been established. An HED Configuration Management Staff has been created (membership as yet undetermined) and will report directly to chief, HED. The Systems Engineering Branch has been renamed Engineering Branch. The Software Branch is abolished. A new User Support Branch (USB) has been created and will provide software support to AFS (database management, profiling, etc.), the Wang, VM and other existing computer systems and software used in FBIS. The Automated FBIS Systems Branch and Training Branch remain unchanged.

4. Advanced Development Division: A new position of deputy chief, ADD has been established. A new Requirements Staff will report directly to the chief, ADD. Instead of branches, the division will consist of the following five segments:

Headquarters Unclassified Segment (HUS).

Headquarters Classified Segment (HCS).

Communications Segment (CS).

Field Bureau Segment (FBS).

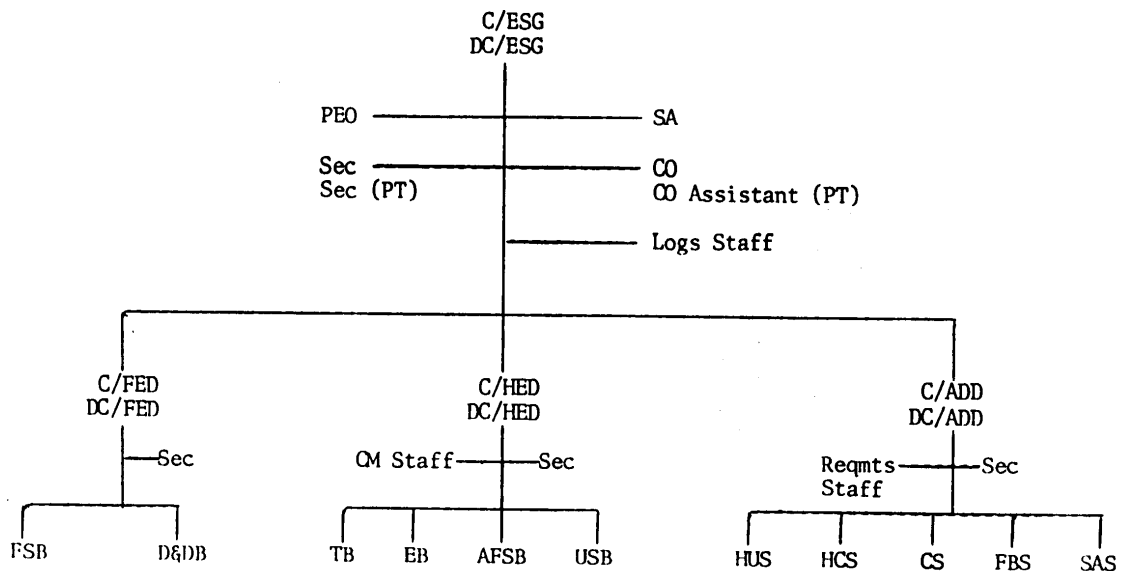

Software Applications Segment (SAS).

5. The ESG front office remains unchanged, except for the formation of a Logistics Staff.
